Education and welfare

Number of pupils on the schools monitoring register: 56. This has gone marginally compared to the last report.

On a *Child Protection plan*: 0- which is good! See the CiN total below.

Looked After Child: 1- as before.

Recognised as *Child in Need*: 11 This figure is slightly higher than previous; which reflects the 'stepdown' for a number of families from Child Protection.

Supported through a TAC: 4- one less than last meeting.

CSC INVOLVEMENT: 17 (either are currently involved or CSC have done an initial assessment on the family from a referral this term). This figure is higher than last meeting- as we would expect to increase over the course of the term. In most cases, there was no further involvement with CSC following an informal enquiry or initial assessment.

We have 11 children who currently have a social worker assigned or is undertaking an assessment on the children/family.

Police logs: 11 just this term (eg 7 weeks). This figure is a higher than the previous term.

The safeguarding team is made up of 5 trained members of staff, including ML as the Designated Safeguarding Lead (DSL).

ML has completed the annual safeguarding audit. The actions we have identified are:

- GB safeguarding Lead to complete GB CP training (although she has completed 'full CP' training as a previous staff member). **Training booked.**
- We need to update model policy (due to recent DfE draft consultation of proposed changes to Keeping Children Safe in Education, Sept 2022). **Action met.**
- ML's Safer Recruitment training ran out on 24.11.21; this has been updated since. No staff appointments have been made since this gap in training, so we were compliant. **Action met.**
